# WHAT MAKES US WHO WE ARE

We are a team of professionals

We participate in annual conferences

We actively utilize open-source solutions

We make use of all cutting-edge technologies

We perpetually evolve

RECOMMENDATIONS

S. Siglovoy
Director of AzRestoran,
Baku

My company employed the Rademade team to develop a website trading platform for restaurants all around Azerbaijan. The tactful and innovative approach of Rademade resulted in a smooth developmental process of the project. The thoroughness exhibited by the team brought many peculiar questions to light, thus allowing us to improve our product during the creation process. Every stage of development was completed in a timely manner. We owe our website's current success to the Rademade team!

A. Baykumanov
Director General of GelaSkins,
Moscow

We have been Rademade's client since 2011, when we launched our website, GelaSkins.ru. The flexibility of architecture that is provided by the team of programmers at Rademade make corrections, the addition of new functionality and modules a simple process. The response rate of the Rademade employees allows us to fulfill our orders in a timely manner. There is no little or major issue for their programmers, they treat every bug or concern with the same level of integrity and steadfastness. GelaSkins.ru would like to thank the team at Rademade for their diligence and ingenuity.

RECOMMENDATIONS

O. Billar

Project manager of Redkosti,
Moscow

Thanks to the talented team from Rademade, we were able to create a truly unique project for our customers. The continuous support, reliability and high professionalism make you an outstanding company for Web-based projects. Redkosti wishes you all the best in your future endeavors.
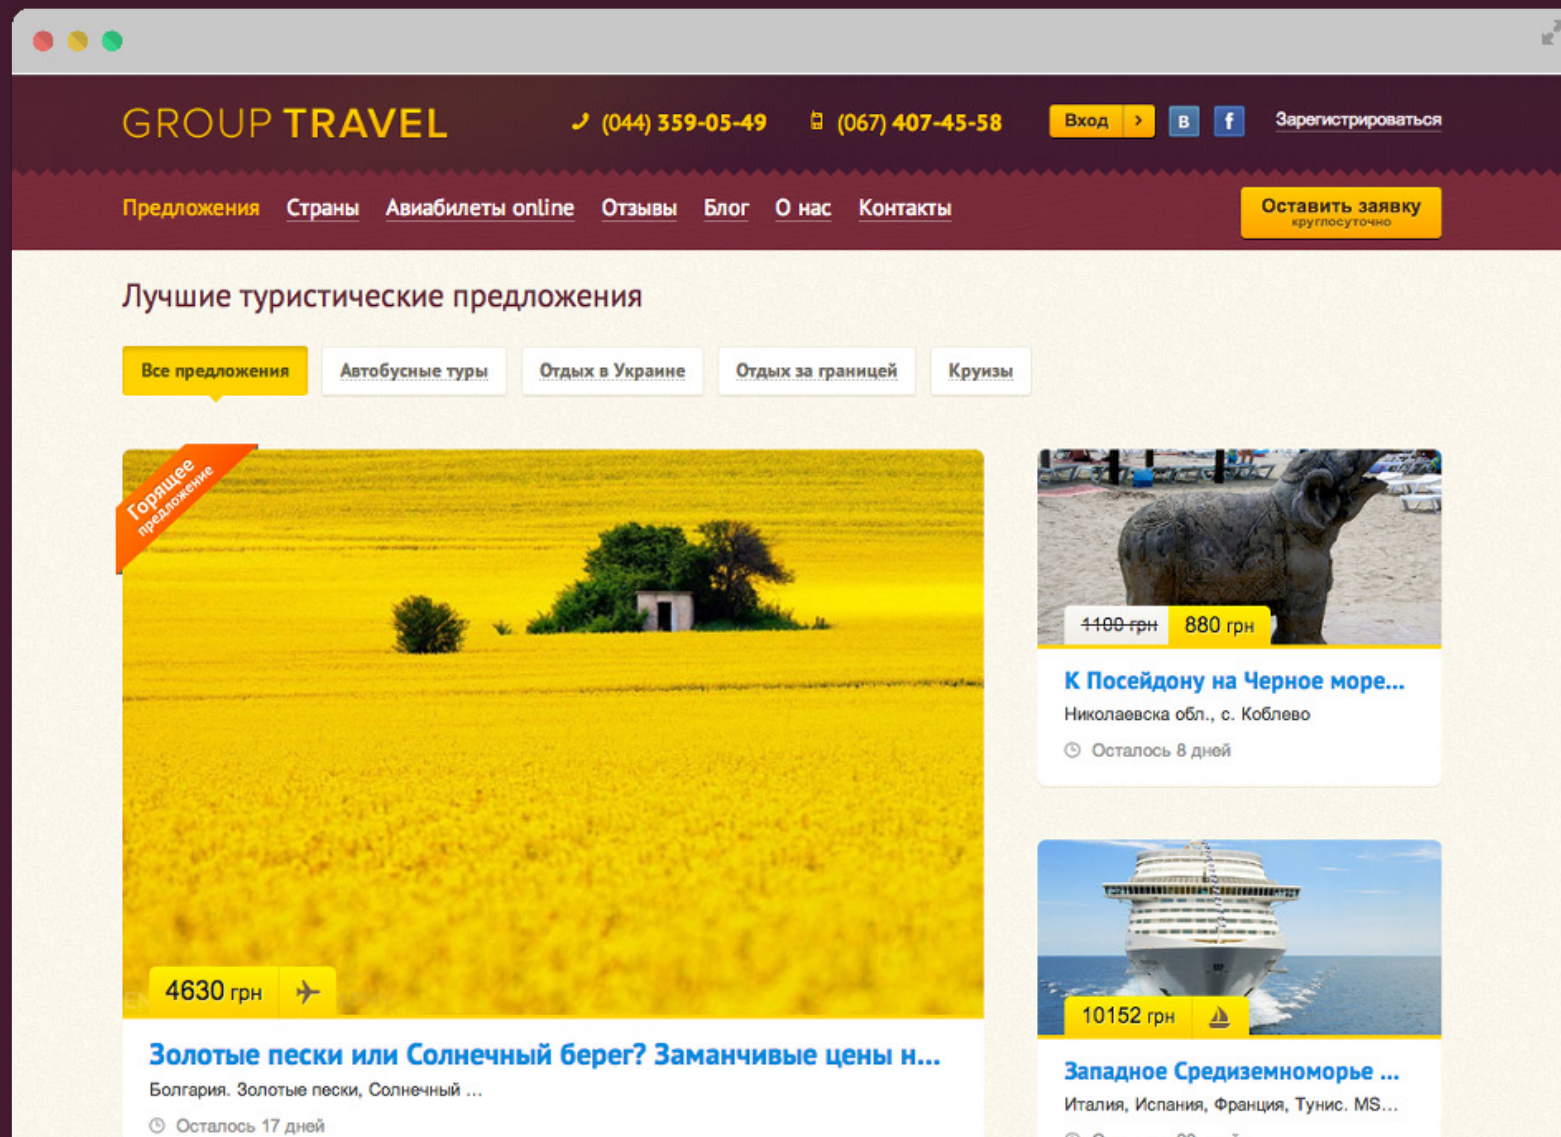

A. Ilinskiy

Private entrepreneur,
Moscow

Throughout our four years of collaboration with Rademade, we have implemented six major projects. The punctuality, integrity and humility of their team makes working with them a pure delight. Any conflict is resolved in a prompt manner and the client is held in the highest regard. Thank you for your services Rademade!

Travel Agency: Group Travel

Grouptravel.ua is a company that offers unique touring opportunities to their visitors. Upon our completion of the project, making a reservation and paying for a tour online became a breeze. The site currently serves over 5,000 visitors on a daily basis.

Italian furniture Salon: Arredamenti

A Ukrainian E-commerce store for the finest Italian furniture. We implemented an agile search and selection engine for the vast 60,000 product catalogue.

www.arredamenti.com.ua
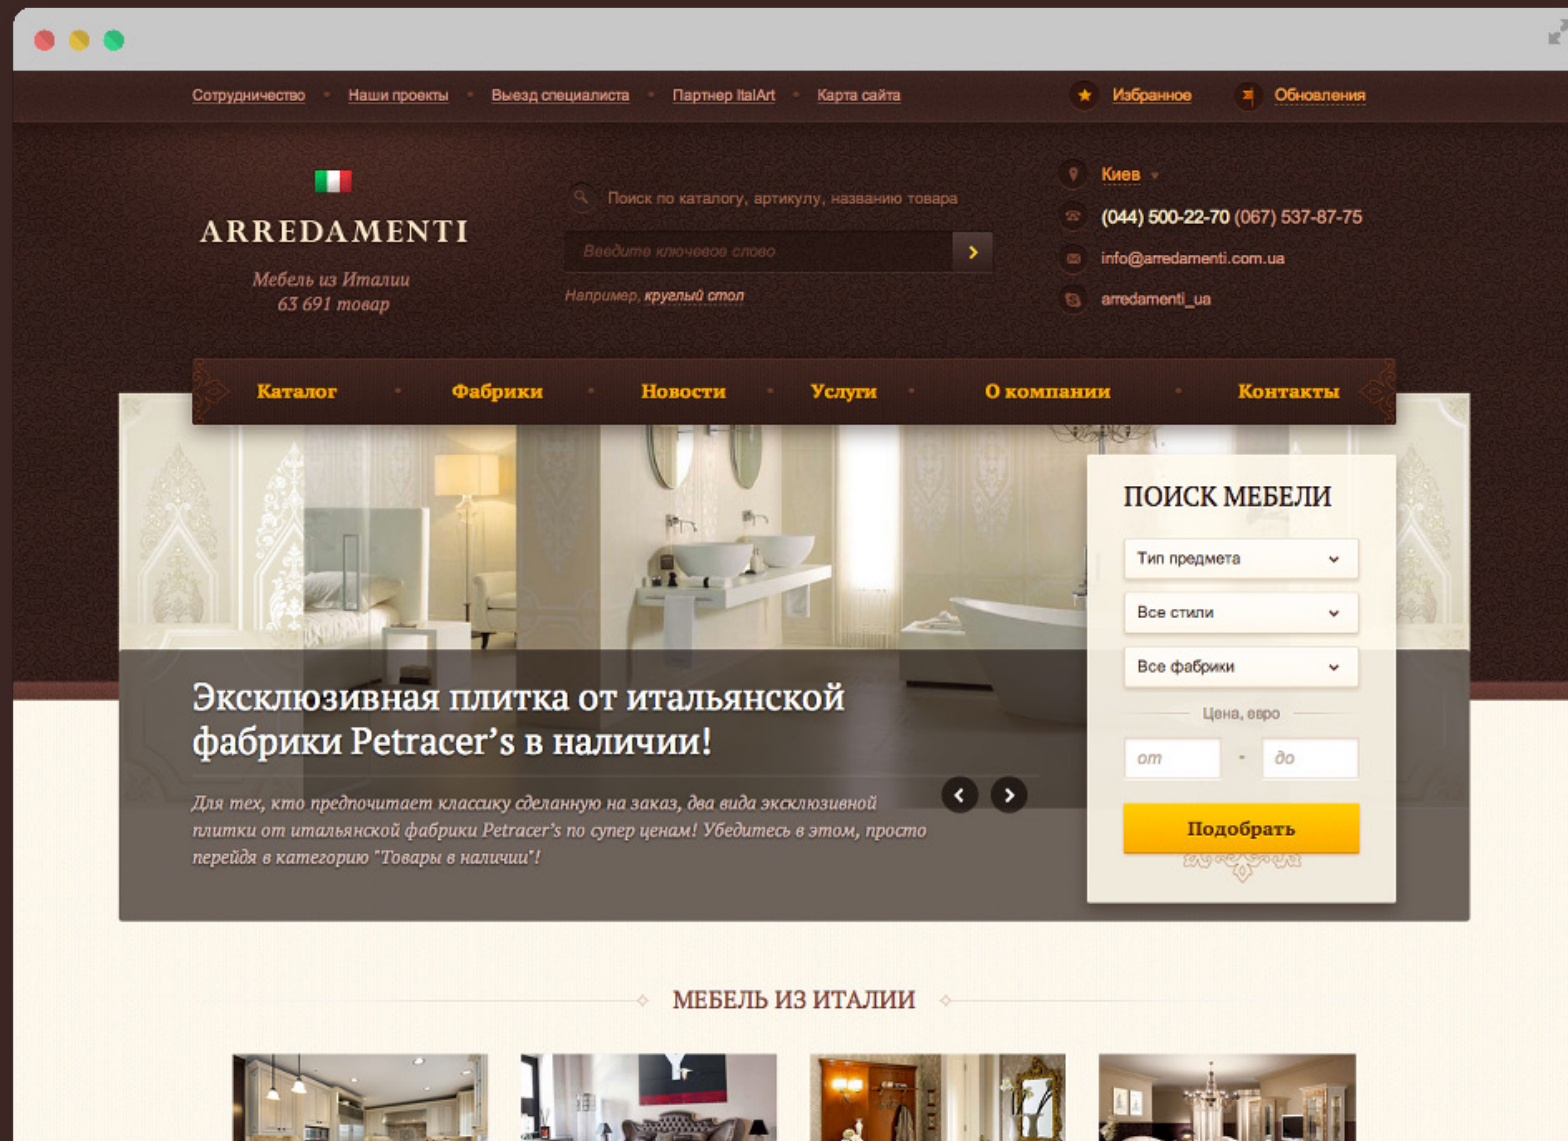

ARTItal paintings Distribution

The exquisite paintings from the Italian market are available through the art portal, with support for touchscreen devices all across Ukraine.
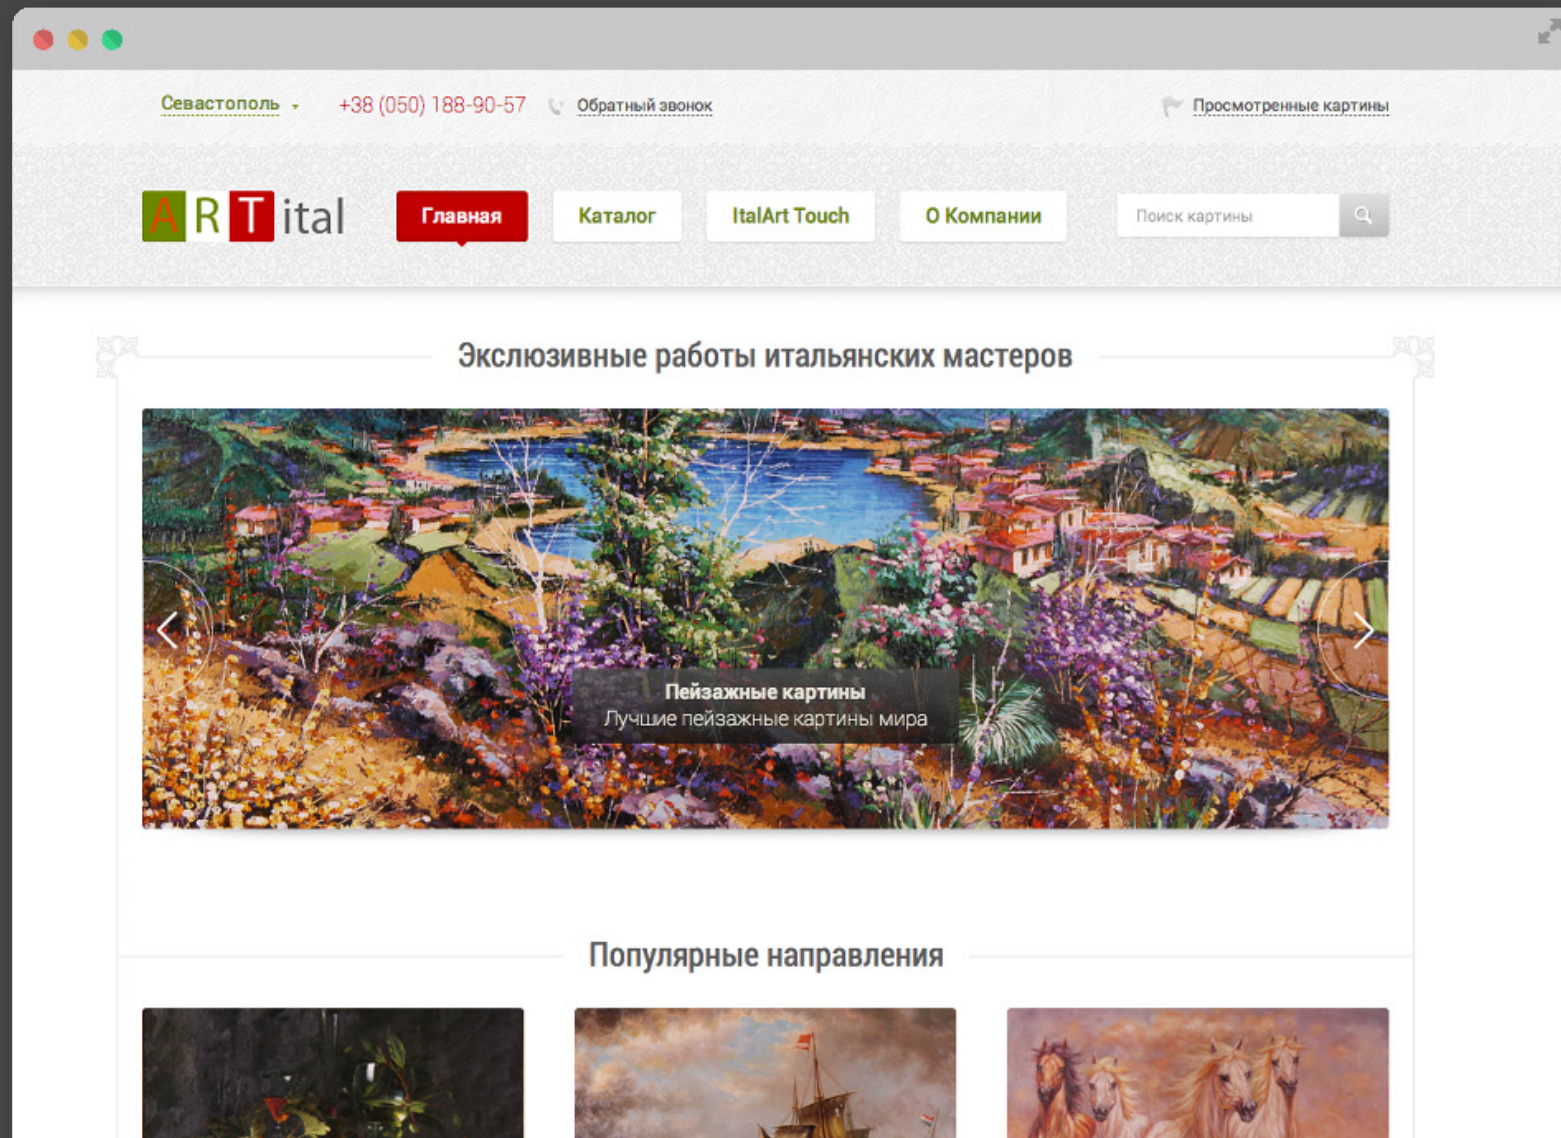

First English portal: Enguide

A complete catalogue of English courses offered in Ukraine, Russia and Belarus. We built in a convenient filter to search for courses based on geolocation in addition to enabling lesson sign-up via SMS notifications. The standard online payment methods are available to visitors as well.

Daily rent for travelers: Verony

The solution for the banal problem of finding great places to stay for several days is here. This Ukrainian project allows people to pay for housing on a daily basis. With a flexible search system, SMS notifications, and integrated payment systems for the customers and an object management interface for the realtors, Verony is a success.
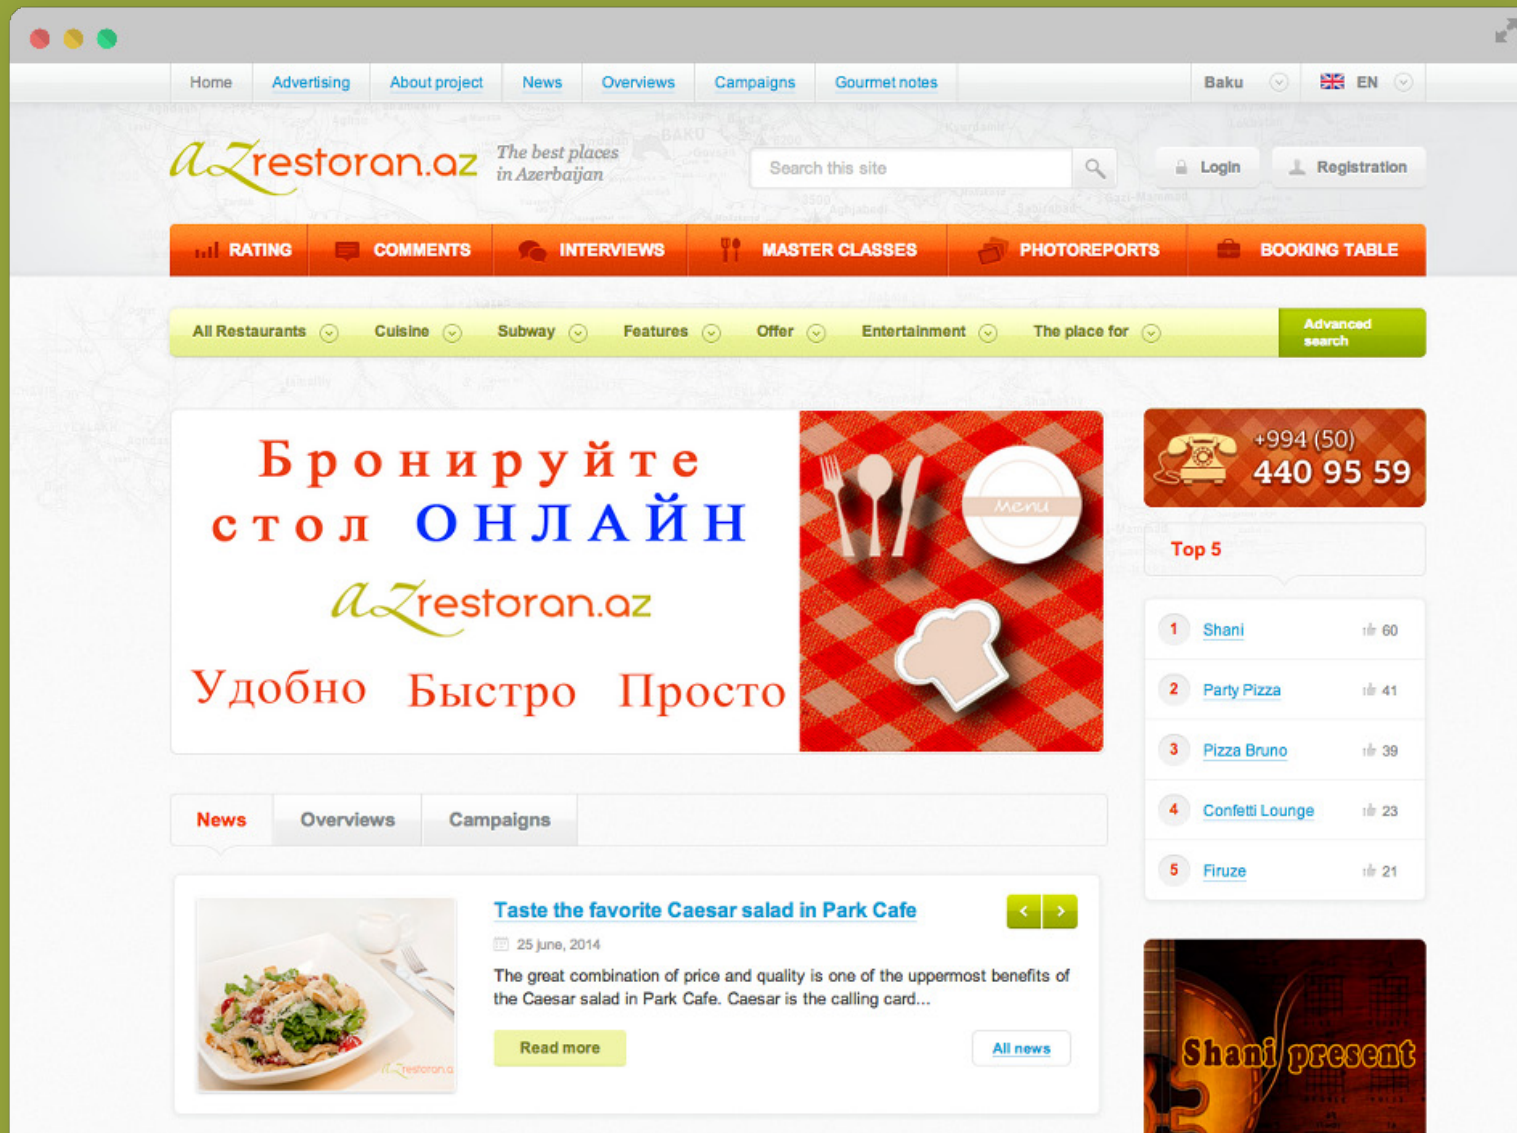

www.verony.com
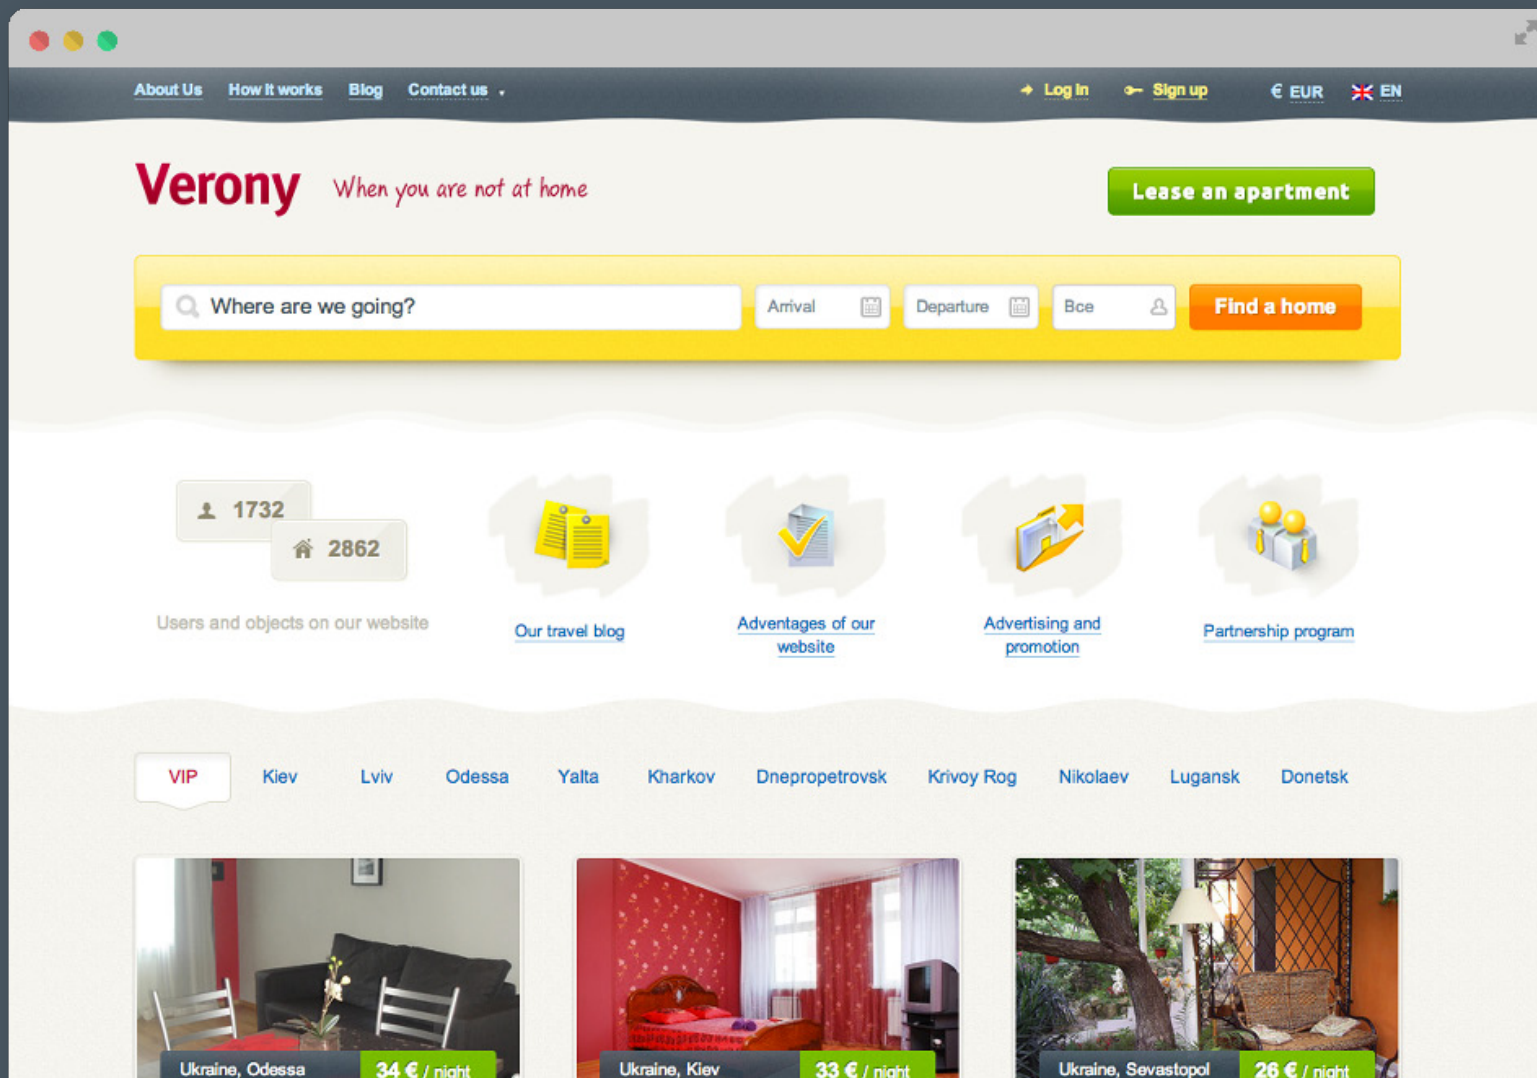

Best Restaurants of Azerbaijan: AzRestoran

AzRestoran is the first internet project of its kind in Azerbaijan. It allows you to search for tables and set reservations in restaurants, across twelve main culinary subgroups which encompass the entire fine dining industry
